

EAST ANGLIA DRIVER TRAINING

Driving your business forward

The Problem

The Health and Safety at Work Regulations 1999 state “you have a responsibility to manage health and safety effectively. You need to carry out an assessment of the risks to the health and safety of your employees, while they are at work” Along with the Corporate Manslaughter and Corporate Homicide Bill this can cause directors a serious headache.

Are you finding that your vehicle costs are rising year on year?

Do any of these sound familiar:

- ◆ High maintenance costs
- ◆ Rising fuel costs
- ◆ High accident rates
- ◆ Higher insurance premiums
- ◆ High costs in parking and speeding tickets

East Anglia Driver Training can help organisations like yours. We can help prevent all of the above and help all of your drivers and the company in maintaining the law and reduce costs to your fleet.

“you have a responsibility to manage health and safety effectively”

The Solution

East Anglia Driver Training specialise in helping companies comply with their obligations and at the same time reducing their fleet costs. We can provide a variety of courses to help develop your team.

We will provide a free consultation to show you how and where we can reduce your costs.

We will help you:

- ◆ Improve your driver team
- ◆ Reduce your insurance costs
- ◆ Reduce your fuel costs
- ◆ Help prevent accidents
- ◆ Help you maintain safer vehicles.

“We can provide a variety of courses to help develop your team”

The Assessment

Our trainers will assess and develop skills in different types of roads, these will include urban and rural roads, A class and B class roads and dual carriageways. We will initially grade your drivers on awareness and planning, speed, attitude and bend assessment amongst other things. Having endeavoured to develop and advance their driving skills during this initial period the driver will be re-graded allowing them to improve their score.

We will provide the driver with a report form to show them their score and the comments we have made. You will be provided with a copy and a few days later you will receive a more comprehensive report in the post.

“Our trainers will assess and develop skills on different types of roads”
